

PRESS RELEASE

WICK HILL AT INFOSECURITY EUROPE 2008

22nd-24th April 2008
Olympia, London

Stand No: F120

Woking, Surrey: 20th March 2008 - In a rapidly changing threat landscape, Wick Hill will be showing a range of new and updated security solutions covering security management, e-mail security, unified threat management (UTM) and strong authentication. Other areas where Wick Hill is exhibiting include web gateway and content security, anti-spyware and anti-crimeware, encryption and data leakage protection, and mobile, wireless and remote security.

Also featured are new supplier launches from CRYPTOCARD (strong authentication) and 8e6 Technologies (web filtering), major new product launches from vendors such as WatchGuard, as well as new solutions and new versions from companies such as Barracuda, Check Point, Finjan, Imprivata, Kaspersky, Utimaco, Yoggie and VASCO.

Activities on the stand include confidential security briefings and chances to win in a special scratch card promotion.

ENDS
