One solution, one license, one great price. Introducing the Firebox® X Core™ UTM Bundle

Now WatchGuard® makes it even easier for small- to mid-size businesses to get comprehensive Unified Threat Management – the best in its class. Everything you need for robust, multi-layered security, including expert guidance and support, is bundled in one convenient package for streamlined setup and ongoing maintenance. An exceptional value, each package provides:

- ✓ Firewall/VPN
- ✓ Anti-virus
- ✓ Zero day protection
- ✓ Intrusion prevention
- ✓ Anti-spam
- ✓ Expert guidance & support
- ✓ URL filtering
- ✓ Anti-spyware

Let the UTM Bundle Simplify Your Life

From initial purchase and setup through ongoing security management, e-Series UTM bundles make network security management easier and more efficient. Getting everything you need in one package means:

- No need to handle multiple POs, multiple policies, multiple configurations, or work with multiple vendors
- One license key turns on the firewall and all security services
- One support contract covers all aspects of your network security profile
- A great value when you buy together and save

Inside the Firebox X Core e-Series UTM Bundle

The e-Series UTM bundle makes it easy for you to have a fully integrated security solution backed by our award-winning support service. The bundle includes:

Unified Threat Management Appliance

Powerful Firebox X Core e-Series firewall/VPN with the true Zero Day protection. Choose the model that's right for you – the X550e, X750e, or X1250e.

Gateway AntiVirus/Intrusion Prevention Service*

Provides unbeatable, signature-based protection from known viruses, trojans, spyware, buffer overflows, SQL injections, instant messaging, and P2P usage.

spamBlocker*

Best service in the industry at distinguishing legitimate communications from spam outbreaks in real time, blocking up to 97% of unwanted email.

WebBlocker*

Increase productivity and decrease security risks by blocking access to malicious Web content and managing your users' Web surfing.

LiveSecurity Service*

WatchGuard's ground-breaking support and maintenance program provides up-to-the-minute security alerts, expert technical support, software updates, advance hardware replacement, training, and self-help resources.

*One-year renewable subscription

Purchase one bundle and get the works. That's it – no additional licenses, fees, support contracts, or hardware purchases. It's the easiest way to comprehensively protect your network from malicious threats.
