

WatchGuard Promotion

50% Off WatchGuard's Firebox X Peak™

From now until 31st August 2009, purchase select Firebox® X Peak™ e-Series appliances and get a second identical model with LiveSecurity for High Availability at 50% off! Rest easy knowing your network is safe - no matter what - and that you made big savings by making it happen!

WatchGuard® security services are designed to integrate seamlessly with Firebox X appliances and provide an unbeatable combination of security capabilities - no additional hardware or software required.

Benefits of High Availability with the Firebox X Peak

- Fewer single points of failure in your system
- Security subscriptions failover automatically
- Complete security redundancy in a single additional device

Firebox X Peak Features

- Up to 2.0 gigabits of firewall throughput per second
- Capable of completely integrating full UTM protection
- Advanced networking features such as load balancing, policy-based routing, VLANs, Quality of Service, and much more.
- Centralised management and configuration

How the Promotion Works

1. Call your reseller, or Wick Hill for reseller details, to purchase any Firebox X Peak with LiveSecurity or Firebox X Peak UTM Bundle, at SRP.
2. On the same order, purchase an identical model as the one chosen with LiveSecurity - *purchasing both together means the second device with LiveSecurity will be automatically reduced by 50%.*

It's that simple!
